

Credit card controls

You have the convenience to self-service and manage your credit cards from within Online Banking. Follow these steps to learn how to turn your credit card on/off, block international usage, enable transaction controls, set spending limits, and file a dispute.

How to turn your credit card on/off

1. Log in to Online Banking. On your main dashboard, click the **Credit Card Tile**.
2. In the expanded credit card window, click **Details & Settings**.
3. Near the credit card image, move the **toggle** to the left to lock your card.
Tip: You can change the status of your card any time. The status will go into effect immediately.

How to block international usage

1. Log in to Online Banking. On your main dashboard, click the **Credit Card Tile**.
2. In the expanded credit card window, click **Details & Settings**.
3. Move the **Block International Usage** toggle to the right to turn it on.
Tip: If you would like to allow international usage, move the toggle to the left.
